Abbey is a board game inspired by the novel, designed by Bruno Faidutti and Serge Laget. Benno of Uppsala, a rhetoric scholar, reveals to William that the librarian, Malachi of Hildesheim, and his assistant Berengar of Arundel, had a homosexual relationship, until Berengar seduced Adelmo, who committed suicide out of conflicting religious shame. To actual history and geography Saint Michael's Abbey, in the Susa Valley, Piedmont William of Ockham, who lived during the time at which the novel is set, first put forward the principle known as Ockham's Razor, often summarized as the dictum that one should always accept as most likely the simplest explanation that accounts for all the facts (a method used by William of Baskerville in the novel). The novel ends with irony: as Eco explains in his Postscript to the Name of the Rose, "very little is discovered and the detective is defeated."^[4] After unraveling the central mystery in part through coincidence and error, William of Baskerville concludes in fatigue that there "was no pattern." Thus Eco turns the modernist quest for finality, certainty and meaning on its head, leaving the nominal plot, that of a detective story broken, the series of deaths following a chaotic pattern of multiple causes, accident, and arguably without inherent meaning.[3] The aedificium's labyrinth The mystery revolves around the abbey library, situated in a fortified tower—the aedificium. Numerous other philosophers are referenced throughout the book, often anachronistically, including Wittgenstein. Adelmo was skilled at comical artwork, especially concerning religious matters. The name of the narrator, his apprentice Adso of Melk is among other things a pun on Simplicio from Galileo Galilei's Dialogue; Adso deriving from "ad Simplicio" ("to Simplicio"). In spite of Malachi prohibiting William and Adso from entering the labyrinthine library, they penetrate the labyrinth, discovering that there must be a hidden room, entitled the *finis Africae* after the presumed geographical edge of the world. According to nominalism, universals are bare names: there is not a universal rose, only the name rose.[15] A further possible inspiration for the title may be a poem by the Mexican poet and mystic Sor Juana Inés de la Cruz (1651-1695): Rosa que al prado, encarnada, te ostentas presuntuosa de grana y carmin bañada: campa lozana y gustosa; pero no, que siendo hermosa también serás desdichada. Also in the background is the conflict between Louis IV and Pope John XXII, with the Emperor supporting the Spirituals and the Pope condemning them. Malachi, near death, returns to the early sermon on the sixth day, and his final words concern scorpions. The ending also owes a debt to Borges' short story "Death and the Compass", in which a detective proposes a theory for the behaviour of a murderer.
